

Pre-Boarding Passenger Confirmation (Patient)

Passenger Name (Patient):

Passport Number:

Guardian Name:

Passport Number:

1. In the case of patient boarding, submission of a medical certificate and prior confirmation regarding the patient's ability to board are required. Boarding may be denied if it is determined that travel is not safe for the patient.
2. The voyage between Donghae and Vladivostok takes approximately 24 hours. Depending on weather conditions, the vessel may experience heavy rolling. Such conditions may negatively affect the patient's physical condition. Please note that there are no medical personnel (doctors or nurses) on board, and the ship is not equipped with sufficient medical equipment or medicines.
3. Even in the case of a medical emergency requiring examination or treatment, transportation to a medical facility will only be possible after arrival at the destination, which may result in significant delays before treatment can be received.
