

Electric Bicycle Owner Notice and Consent Form

Date of Boarding	
Name	
Phone Number	
Battery Type	Integrated (Built-in) / Removable
Number of Batteries	How many batteries (including spare/auxiliary batteries) do you have? [] ex) If you have an integrated electric bicycle with no spare battery, write "0"
Signature	* I have read, understood, and agree to the terms described below. * For round trips, this signature applies equally to both routes.

► Removable Battery Electric Bicycles

- 1) All bags attached to the bicycle must be removed.
- 2) Detach the battery from the bicycle before check-in. (Keep detached batteries and spare/auxiliary batteries with you as hand luggage when boarding)
- 3) Bicycles with the battery removed must pass through X-ray security screening at check-in.
- 4) Once passed through the X-ray screening, the bicycle will be loaded into the bicycle rack on the cargo deck by ferry staff/crew.
- 5) Passengers who have completed X-ray screening should proceed to the departure hall for immigration/ departure procedures, then board the vessel.
- 6) Detached batteries MUST be handed in to the Information Desk on the 2nd floor immediately after boarding.**
- 7) In the event of any abnormalities or hazard signs (such as smoke, deformation, thermal runoff, or fire), crew members reserve the right to jettison (throw overboard) the affected battery without the owner's prior consent.**
- 8) Charging bicycle batteries (including spare batteries) on board without surrendering them to the Information Desk is strictly prohibited.**
- 9) If damage occurs to the vessel or surrounding property due to battery ignition/fire, full liability shall rest with the bicycle owner.**
- 10) Upon disembarkation, follow crew instructions and disembark via the cargo area ramp or gangway.

► Integrated (Built-in) Battery Electric Bicycles

- 1) All bags attached to the bicycle must be removed.
- 2) Bicycles with integrated (non-removable) batteries shall be checked in without detaching the battery.
- 3) Checked bicycles must pass through X-ray security screening at check-in.
- 4) Once passed through the X-ray screening, the bicycle will be loaded into the bicycle rack on the cargo deck by ferry staff/crew.
- 5) Passengers who have completed X-ray screening should proceed to the departure hall for immigration/ departure procedures, then board the vessel.
- 6) In the event of any abnormalities or hazard signs (such as smoke, deformation, thermal runoff, or fire) detected from the bicycle battery during voyage, crew members reserve the right to jettison (throw overboard) the affected bicycle without the owner's prior consent.**
- 7) If damage occurs to the vessel or surrounding property due to bicycle battery ignition/fire, full liability shall rest with the bicycle owner.**
- 8) Upon disembarkation, follow crew instructions and disembark via the cargo area ramp or gangway.
